EDUCATION

- Indian Institute of Technology Bombay** Mumbai, India
B.Tech. in Computer Science and Engineering; Minor in Statistics July 2012 - June 2016
GPA: 9.63 (Department Rank 3 among 87); Institute Academic Award (2013)

EXPERIENCE

- SIMON Markets LLC** New York
Lead Product Manager Feb 2019 - Present
Fintech startup backed by major investment banks and insurance providers, with a mission to empower financial advisors with a centralized investment platform for risk-managed products
 - Developed and led strategy for usage growth in enterprise clients. Helped acquire 20,000 new financial advisors and increased Monthly-Active-Users from 3500 to 8500, which led to 93% (+\$14mm) YoY revenue growth
 - Conducted user research and analyzed usage data to create a roadmap of innovative platform features. Executed with a cross-functional team (engineering, design, sales, marketing), and improved new user retention from 30% to 50%
 - Built go-to market processes that tripled email CTRs. Defined key user personas, success measures and sales tactics; and set up Salesforce data integrations for lead targeting
 - Drove a roadmap to make organization data-driven by onboarding analytics tools, data warehouse and BI dashboards
 - Promoted to Lead Product Manager in 18 months, and helped realign organizational structure to promote growth
- Goldman Sachs** New York
Senior Software Engineer Jul 2016 - Feb 2019
Part of the alternative investments team, with a mandate to design a web-based investment platform for equity products. Team was spun-off with investments from major investment banks and insurance providers
 - Led development of a post-trade management portal. Defined user journeys and groomed FA requirements
 - Built Rest API integrations with major banks (JPM, MS etc.) and wealth managers (RJ, LPL etc.) for daily uploads of 500,000+ client positions and 40,000+ products
 - Built streaming and batch ETLs to aggregate data from NoSQL databases. Designed AWS microservices backed by PostgreSQL to display customizable reports and handle PII compliance requirements
 - Conceptualized risk measures for structured notes. Designed stochastic models for rough predictions of lifecycle events

TECHNOLOGIES

- Engineering** Scala, Python, PostgreSQL, Mongo, AWS S3, AWS EKS, AWS Lambda, AWS Kinesis, Github
- Analytics** Jira, Mixpanel, Splunk, Pandas, Tableau
- Sales, Marketing** Salesforce, Pardot, Engage, Appcues
- Design** Invision, Flowmap, Confluence
